SOUTHERN PROGRESS

It Is Making Wonderful Strides Towards Manufacturing.

INCREASE IS GREAT.

The Tendency Is to Consume the Raw Material and Such a Move Has Resulted Satisfactorily Wherever It Is Undertaken.

Baltimore, March 22.—For a long time the south was content to be a producer of the raw material to be manufactured at great gain in other parts of the country. Referring to that fact, and to the causes which retarded the industrial growth of the south, the Manufacturers' Record says: "That it is coming into its own is demonstrated by the fact that while the value of manufactured products in the whole country increased 142 per cent between 1890 and 1900, the value of manufactured products in the south increased in the same period 220 per cent. In the meantime, the value of manufactured products in the south increased from eight per cent to eleven per cent of the value of manufactured products in the country. That fact, taken in connection with the obvious expansion of manufacturing in the south during the past 10 years, shows that much of the increase in its manufacturing has been but an increase in the first handling of material for lucrative manufacturing elsewhere, for, with a population of 23,000,000 the south's manufactured products in 1900 were valued at \$1,466,000,000, while the rest of the country, with a population of 53,000,000, produced to the value of \$11,574,000,000. Still the south has the proper gait and the rise in recent years of new industrial centres in nearly every southern state from West Virginia to Texas, and the enlargement of undertakings in older communities, with the manifest tendency toward diversification in manufacturing, indicate the determination of the south to use to the utmost all of its magnificent resources for its own enrichment and for the welfare of the whole country."

Many of the influences contributing to the position which the United States now occupies in industry and commerce are traceable directly to the development of southern timber, agricultural and mineral resources, and more than one southern product has been foremost in what is known on the other side of the ocean as the "American Invasion."

THREE BILLS PASSED

The Senate Disposed of Two and the House of One.

WAR REVENUE TAX.

Senate Passed That Measure and One Protecting the President—House Passes the River and Harbor Bill Without Change.

Washington, March 22.—Two important measures were passed by the senate Friday the bill for the repeal of the war revenue taxes and that for the protection of the president of the United States.

The revenue bill was passed without division and after only one short speech, by Mr. Tillman embraced the opportunity afforded by the bill's consideration to protest against the repeal of the duty of ten cents a pound upon tea.

The bill for the protection of the president was under discussion the greater part of the session. Mr. Patterson of Colorado made an extended speech in opposition to the bill and Mr. Fairbanks supported it. All amendments to the measure were rejected and it was passed by a vote of 52 to 15.

The bill provides that any person within the United States who shall wilfully and maliciously kill the president or any officers on whom the duties of president may devolve or any sovereign of a foreign country or shall attempt to kill any of the persons named shall suffer death; that any person who shall aid, abet, advise or counsel the killing of any of the persons named, or shall conspire to accomplish their death shall be imprisoned not exceeding 20 years; that any person who shall threaten to kill or advise or counsel another to kill the president or any official on whom the duties of president may devolve, shall be imprisoned not exceeding ten years; that any person who shall wilfully aid in the escape of any person

guilty of any of the offense mentioned shall be deemed an accomplice and shall be punished as the principal.

The secretary of war is directed to detail from the regular army a guard of officers and men to protect the president "without any unnecessary display" and the secretary is authorized to make the regulations as to the dress, arms and equipment of such guard.

River and Harbor Bill Passed.

Washington, March 22.—The house Friday passed the river and harbor bill, which has been under consideration throughout the week. Although several minor amendments were adopted not a single dollar was added to the measure and as passed, it carried exactly what it did when it came from the committee \$60,588,267, including authorizations.

Mr. Sulzer of New York attempted to force a record vote on the final passage of the bill, but only three members, Messrs. Smith of Iowa, Fitzgerald of New York and Cochran of Missouri, supported him.

Miles' Statement Discussed.

Washington, March 22.—At the cabinet meeting Friday the publications relating to the statements made by Gen. Miles before the senate committee Thursday were brought up but consideration of them was postponed until after all the facts in the matter became known.

Whatever intentions the president had with respect to the treatment to be accorded Gen. Miles, his future action will be somewhat influenced by the fact that Gen. Miles' statement before the senate committee has been represented to him as being privileged. The president proposes to read the testimony given at the hearing and to consult with different members of the committee on military affairs before finally announcing what he proposes to do.

It is significant that long after the cabinet meeting adjourned Secretary Root and the attorney general were closeted with the president.

Not Boycott American Goods.

London, March 22.—At a meeting of Edinburgh association of retail tobaccoists a resolution adopted unanimously declining to sign the Imperial Tobacco company's agreement not to sell American goods for a term of years, but expressing willingness, if minimum price is raised, so as to allow fair profit to dealers to do what was possible bonus or no bonus for sale of British goods. While the Americans offered large bonus no restrictions were placed upon dealers. Belfast tobacco dealers at meeting decided to accept the American proposition.

Rebels Capture a Town.

Hong Kong, March 22.—The rebels have captured the prefectural town of Kam Chou, in the province of Kwang Tung, and seized the arsenal and granaries. The mandarins of the garrisons fled and appealed to Canton for reinforcements. The viceroy of Canton replied it was impossible to further deplete the Canton garrison and urged General Ma to make the utmost efforts to put down the rebellion.

WOOD AT WASHINGTON!

Consulting as to the Transfer of Government of Cuba to Palma.

Washington, March 22.—General Wood, governor of Cuba, has arrived here and is the guest of President Roosevelt. He will arrange with the president and the secretary of war for the transfer of active control of affairs of Cuba to the Cuban republic. The principal arguments for military evacuation of the island will be made quickly. General Wood will leave here not later than next Tuesday night on his way back to Havana and will return to Cuba by way of New York in order that he may meet and consult fully with President-Elect Palma upon a joint program of action.

Monument to Lieutenant Shipp.

Washington, March 22.—When the house met today the senate bill was passed which appropriated \$211,000 for light houses at the entrance of Broad Sound channel, Boston harbor. A joint resolution was adopted to allow a monument to be erected on the public grounds at Charlotte, N. C., to the memory of Lieutenant William E. Shipp, of the Tenth cavalry, who was killed in the charge up San Juan hill.

Other bills were passed as follows: To authorize the secretary of war to loan tents for the use of Knights of Pythias encampment to be held at San Francisco.

To authorize the construction of a lifesaving station at Ocracoke Island, N. C.

To authorize the Kingston and Carolina railroad to construct a bridge across the Neuces river at Kingston, N. C.

Mr. Powers of Maine then called up the contested election case of H. B. Spears vs. John L. Burnett, from the Seventh district of Alabama. The report was unanimously in favor of Mr. Burnett, the sitting member, who is a Democrat, and it was adopted.

Mr. Mann of Illinois, from the committee on elections No. 1, then called up the contested election case of J. McKenzie Moss vs. John L. Rhea from the Third Kentucky district. In this case the majority of the committee reported in favor of the contestant, Mr. Moss, a Republican, and the minority in favor of the sitting member, Mr. Rhea.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not nourish a particular part of the body but it will sustain every other part. Yet, however good your food may be its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. I have heard Gov. Taylor before
 but this season he is, if possible,
 more magnificent than ever.

Words fail to describe the intense
 pleasure and enthusiasm with which
 his lecture was heard by that vast
 audience composed of the best peo-
 ple of Waco. He completely cap-

tured every man, woman and child
 who heard him.
 I am not interested financially in
 his appearance in Bryan, but I re-
 joice that our people have this great
 treat in store for them.

An Endorsement.

In the coming of Gov. Bob Taylor
 the people of Bryan have reason to
 anticipate a great treat. The under-
 signed heard him deliver his new
 lecture, "The Old Plantation" in
 Corsicana last month and we can
 unreservedly say that the lecture to-

Russian Officer Condemned to Death for
 Telling of Government Plans.

St. Petersburg, March 22.—Semi-offi-
 cial Russky Invalid announces that
 Colonel Grimm, the Russian officer re-
 cently condemned to death by court-
 martial at Warsaw after having been
 convicted of systematic revelations of
 military secrets to a foreign power, has
 confessed to high treason.

About 60 arrests have been made at
 Warsaw in connection with the trial
 of Grimm, who, it has been asserted,
 had during ten years, revealed to Ger-
 many every plan prepared by Russia
 in the eventuality of war between the
 two countries. The discovery of the
 colonel's treason was due to his wife,
 who denounced her husband in re-
 venge for his having paid attention to
 another woman.

CHOLERA AT MANILA.

Sixteen Cases Have Developed and Fif-
 teen of Them Died.

Manila, March 22.—The board of
 health is making strong endeavors to
 prevent the spread of cholera. There
 has been 16 cases and 15 deaths among
 the natives. In two days other natives
 are suspected of having contracted the
 disease.

Tobacco Companies Fighting.

London, March 22.—In response to
 an explanatory manifesto issued Fri-
 day night by the Imperial Tobacco
 company, Ogdens (limited), repre-
 senting the American tobacco company,
 will on Monday telegraph its custom-
 ers that traders signing the modified
 agreement of the Imperial company
 cannot participate in the American of-
 fer of a bonus.

Shooting at a Spelling Bee.

Vienna, Ill., March 22.—At a spelling
 match given at the school house at
 Double Bridges, Simpson township, a
 shooting affray occurred. Frank Rush-
 ing and John Adams, two young men
 of the neighborhood, had been paying
 their respects to the same young wom-
 and, and in a dispute Adams shot
 Rushing.

Torpedo Boat Launched.

Philadelphia, March 22.—The Barry,
 the third of the series of torpedo boat
 destroyers which have been built for
 the United States government by Nea-
 fie and Levy here has been launched.
 Miss Charlotte Barnes, a descendant of
 Commodore Barry, after whom the
 craft is named, christened the

Hard on Chamberlain.

London, March 22.—The sensational
 exit of John Dillon, the Irish National-
 ist, from the house of commons, on
 Thursday last, as the result of his call-
 ing Chamberlain, colonial secretary, "a
 damned liar," continues to be the topic
 of the hour. Irish Nationalist papers
 back up Dillon regarding Chamber-
 lain's lack of veracity with cheerful
 frankness. Though the Dublin Even-
 ing Telegraph remarks that Dillon was
 guilty of slight anticipation regarding
 Chamberlain's damnation, which, it
 says, is only coming, though, already
 in sight, adding: "As to his being a
 liar, that goes without saying."

Coal Combine in Indiana.

Terre Haute, March 23.—The bitu-
 minous coal operators of the field in
 Indiana north of the National road,
 and having an output of one-third the
 bituminous coal produced in the state,
 have perfected a pooling arrangement
 for the sale of the product, about
 2,000,000 tons annually. It is believed
 this particular pool will be followed by
 others covering the southern field of
 the state.

A Card.

It was my pleasure a few nights
ago to hear Gov. Bob Taylor deliver
his new lecture, "The Old Planta-
tion," in the city of Waco.

I have heard Gov. Taylor before
but this season he is, if possible,
more magnificent than ever.

Words fail to describe the intense
pleasure and enthusiasm with which
his lecture was heard by that vast
audience composed of the best peo-
ple of Waco. He completely cap-

tured every man, woman and child
who heard him.

I am not interested financially in
his appearance in Bryan, but I re-
joice that our people have this great
treat in store for them.

An Endorsement.

In the coming of Gov. Bob Taylor
the people of Bryan have reason to
anticipate a great treat. The under-
signed heard him deliver his new
lecture, "The Old Plantation" in
Corsicana last month and we can
unreservedly say that the lecture to-
gether with the old plantation melo-
dies, sung by his quartette, was a
delight to all who heard, in that
large audience.

The lecture is chaste and refined
and we recommend every man, wo-
man, boy and girl to take advantage
of the opportunity to hear this gifted
man.

Some Announcements.

From present indications every available seat in the opera house will be taken in advance for Gov. Taylor's lecture, "The Old Plantation," March 27th.

This is evident not only from the heavy advance sale of seats to parties in the city, but also to the fact that crowds from Calvert, Hearne, Rockdale and Navasota will be attracted by the very low railroad rates offered. College will furnish a large delegation. Bryan is the only city in this section to secure Gov. Taylor this season.

In view of these facts I desire to emphasize that all who buy or have bought tickets from the young ladies must take their tickets to Haswell's and reserve their seats. This is of course without charge and is necessary to insure a seat of any kind for the purchaser. All possible arrangements for the comfort of the crowd will be made. Ushers will be provided but all are urged to be in their seats by 8:45 so as to prevent confusion after Gov. Taylor begins. Chairs will be placed in the aisles and it is thought that even with large out-of-town delegations that it will be possible to give every man a comfortable seat. There will be no seats reserved up-stairs.

The doors of the opera house will not be opened until 8 o'clock.

F. M. Law, Jr.

Millinery Opening.

Mrs. C. P. Hobgood, assisted by Miss Clara Braatz, will make her debut in the business circles of Bryan on Thursday, the 28th day of March, with a beautiful display of pattern hats, including both imported and domestic designs. Her place of business will be the house formerly occupied by Mrs. Proctor, where she will be glad to meet the trade and especially the many friends of Miss Braatz, promising every possible business courtesy and a brand new line of millinery.

The jury in the case of Tom Williams, charged with the killing of his uncle, Bony Williams, came in yesterday morning and returned a verdict of not guilty. Young Williams will be tried on Tuesday for the shooting of Jake Williams.

Some Announcements.
From present indications every available seat in the opera house will be taken in advance for Gov. Taylor's lecture, "The Old Plantation," March 27th.

This is evident not only from the heavy advance sale of seats to parties in the city, but also to the fact that crowds from Calvert, Hearne, Rockdale and Navasota will be attracted by the very low railroad rates offered. College will furnish a large delegation. Bryan is the only city in this section to secure Gov. Taylor this season.

The doors of the opera house will not be opened until 8 o'clock.

Millinery Opening.

Mrs. C. P. Hobgood, assisted by Miss Clara Braatz, will make her debut in the business circles of Bryan on Thursday, the 28th day of March, with a beautiful display of pattern hats, including both imported and domestic designs. Her place of business will be the house formerly occupied by Mrs. Proctor, where she will be glad to meet the trade and especially the many friends of Miss Braatz, promising every possible business courtesy and a brand new line of millinery.

The jury in the case of Tom Williams, charged with the killing of his uncle, Bony Williams, came in yesterday morning and returned a verdict of not guilty. Young Williams will be tried on Tuesday for the shooting of Jake Williams.

Mr. and Mrs. W. P. Walling request The Eagle to express their grateful appreciation for the kindness of friends and neighbors and of the A. O. U. W. lodge upon the occasion of the recent fire which destroyed their home.

THE ROLLS APPROVED.

Claims of Seven Thousand Creeks Sanctioned by the Government.

Muskogee, I. T., March 22.—The Dawes commission has just given out the information that the names of 4767 Creek Indians and 2523 Creek freedmen who were listed for enrollment by the Dawes commission and forwarded to the secretary of the interior for his approval have been by the secretary approved and returned to the Dawes commission. There are yet about 8000 names to be approved.

It is believed that deeds will be issued at once to those citizens whose names have been approved and who have made their homestead selections.

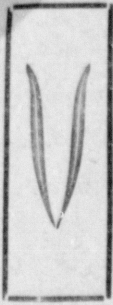

The Creek treaty, ratified May 25, 1901, provides that after receiving title to their allotments Creek citizens may lease their allotments without restriction. The treaty also provides that the lands shall not be alienable by the allottee or his heirs at any time before the expiration of five years from the ratification of the agreement (May 25, 1901), except with the approval of the secretary of the interior. The treaty further provides that each citizen shall select from his allotment forty acres of land as a homestead, which shall be non-taxable and inalienable and free from any incumbrance whatever for 21 years, for which he shall receive a separate deed.

AGAINST CONSOLIDATION.

Houston and Texas Central Stockholders Objects to Absorption.

New York, March 22.—A suit growing out of the absorption of the Houston and Texas Central railway by Southern Pacific interests was put on trial Friday before Justice Traux in the supreme court. The plaintiff is Cornelius McCardell who sues as a stockholder in the Houston and Texas Central and asks to have Frederick P. Olcott adjudged and decreed to hold and possess for the benefit of and as trustee for the Houston and Texas Central Railroad company and its stockholders 4,430,239 acres of land acquired by him on Sept. 8, 1888, at a sale held at Galveston, Tex., and conducted by Chas. Dillingham under foreclosure proceedings. The plaintiff also asks for a similar decree in regard to 277,200 acres similarly purchased by George E. Downs and asks for an accounting from each. The defendant

Will Not Permit Censorship.

Washington, March 22.—The state and navy departments have been informed of the purpose of the government of Colombia to censor all dispatches passing over the cables between diplomatic and consular officers on the isthmus and their home governments. Not much importance is attached to the notice, for there have been many such in recent years which were never enforced, against the United States, at least. Our government, being under the obligation to protect isthmian transit, undoubtedly would hold that the free use of the cables and telegraphs is necessary to the exercise of that power, and would not permit any interference with it. With a war vessel on either side of the isthmus there is little doubt of the physical ability of our government to protect its cable communication.

Messages Subject to Censor.

New York, March 22.—The Western Union company is in receipt of the following advices, dated Panama, Colombia, March 21: "The Colombian government notify us that all consular and diplomatic messages must be subject to censorship."

Spurious Texas Bank Notes.

Washington, March 22.—A circular issued by the chief of the secret bureau says a new counterfeit \$10 national bank note on the Merchants and Farmers' National bank of Weatherford, Tex., series 1882, check letter A, charter No. 3975, treasury No. V72828, bank No. 5005, W. S. Rosecrans, registrar of the treasury; James W. Hyatt, treasurer of the United States, has been discovered. This counterfeit is a photographic print. The charter number panel on the back of the note is tinted green in a bungling manner. A yellowish brown tint has also been applied to the seal on the face of the note. It is printed on two pieces of paper of good quality, between which a few silk threads have been distributed.

Cheatham Accidentally Shot.

Sherman, Tex., March 22.—A letter from Dr. Jerr Warren of Havana, Cuba, at whose home M. V. Cheatham of Sherman was a guest when accidentally shot last Sunday morning, details the circumstances of the unfortunate occurrences which have hitherto been but meagerly reported in cablegrams. When Mr. Cheatham retired he placed his revolver under his pillow. In getting up in the morning the weapon was pulled off the bed and discharged. The ball entered about two inches to the left of the spine and

is seriously injured. A cablegram received Friday morning is a little more reassuring as to his condition.

Texas Bankers' Association.

Galveston, March 22.—The eighteenth annual convention of the Texas Bankers' association adjourned sine die Friday afternoon after having completed the business outlined for the meeting here, electing J. E. McAshan of Houston, president, and choosing Sherman-Denison as the next place of meeting. The rest of the day was devoted to social features.

Ruhlin Defeats Maher.

Philadelphia, March 21.—Gus Ruhlin and Peter Maher met at the Industrial Athletic club here Friday night in a six-round go, and in the latter part of the second round Maher went down and out on a hard left on the jaw.

Plague Raging in Lahore.

London, March 22.—A dispatch to Exchange Telegraph company from Lahore says the plague mortality has reached 2000 daily. The outbreak, which is the worst on record, is attributed to the policy of non-interference with caste customs.

Big Sale of Postage Stamps.

Chicago, March 22.—The record-breaking sale of postage stamps is reported by the Chicago postoffice. The sale was 1,000,000 stamps, for which the purchaser gave a check for \$25,000.

GERMANY NOT IDLE.

Pushing Work on the Shan Tung Rail; Way to Further Her Interest.

Berlin, March 22.—Germany is once more playing a strong game in China. According to private dispatches received by the owners of mining and railway concessions here, large squads of laboring men have been ordered to the Shan Tung valley, whither special freighters of the North German Lloyd and Hamburg-American lines are en route with railway material to complete the main portion of the Shan Tung railway which connects the port of Tsing Tau with a rich coal and mining district in Weihsien, and which must be completed by June 1, of this year. No secret is made of the fact that special syndicates are being formed to obtain possession of the Weihsien mines, while railway lines are projected, not alone to all the corners of the rich Shan Tung province, but likewise to Kng Su and Chi Li, lying beyond the borders of the German sphere of influence.

MORE "IMPARTIAL" HISTORY.

Anent your editorial in the Morning Eagle on "An Impartial Historian," I beg to offer a few criticisms on another impartial(?) history that is being sold over Texas. I refer to "Six Thousand Years of History," consisting of ten volumes and published by a St. Louis house.

For inexcusable misrepresentation it surpasses any other work I ever saw, yet it has the official endorsement of such distinguished citizens as Gov. Sayers and ex-State Superintendent J. S. Kendall, and is recommended by several prominent teachers of Texas.

In the write up of the Shiloh battle, Vol. VI, page 454, the writer says, "He (Grant) then pushed to the front and found the divisions of Sherman and McClelland magnificently battling against great odds. The situation was desperate. Grant moved about from point to point, calmly smoking a cigar and urging his men to hold their ground until the arrival of reinforcements. But as the hours passed and the ranks grew thinner and thinner, nothing was heard either from Buell or Wallace. Finally late in the afternoon, Buell arrived, but accompanied only by a few staff officers, having left his army far in the rear." This was the afternoon of the 6th of April.

Gen. W. T. Sherman, the Northern hero in this battle, says, "Buell rode up to where I was" and said that "Nelson's, McCook's and Crittenden's divisions of his army, containing 18,000 men, had arrived (on the afternoon of the 6th) and could cross over in the night, and be ready for the next day's battle." (See Memoirs, 4th ed. ch. 10(v. 1.) But this recent historian leads one to conclude that Grant fought on the 7th without the help of these fresh troops for he says "Grant saw that his troops were beginning to give way, and glancing about saw the First Ohio Regiment marching toward a distant part of the field. He placed himself at their head and led the charge to relieve the wavering ranks, which were at this moment retreating before the enemy. The charge was successful and the Confederates were swept from the last important positions in the battle of Shiloh."

Just before Grant died a Northern Magazine paid him, I think \$10,000 to write up the battle of Shiloh and over his own signature he said, "I was in gun shot of the enemy but once during the day and that by accident, and remained in danger only so long as it took me to get out—about one minute." (I quote from memory).

Yet this impartial historian has Gen. Grant "to the front, calmly smoking a cigar urging his men to hold their ground," and finally makes him lead a dangerous charge that "swept the Confederates from their important positions." I have quoted from Northern heroes to show that this writer's statements are false.

Again in his sketch of Edgar Allen Poe (see Vol. IX, page 414) he says "Poe was a student at the University of Virginia, where his irregular nature was nurtured in the old cavalier vices of the South. He drank, gambled, ran in debt, and indulged in perverse pride, and was finally disowned by his adoptive father."

When and where has it been proven that drinking, gambling, running in debt, and indulging in perverse pride are vices peculiar to the South, or that the University of Virginia, our greatest institution of learning ever "nurtured" these vices?

I should like to quote other passages from these histories, but space forbids, but let me say that our citizens from the governor to the humblest day laborer should not give aid to any work that is unjust to any section of our common country.

The truth of history should be told regardless of what section is favored, but told without slander, ing any other section.

Respectfully,
T. S. Minter.

Spurious Texas Bank Notes.
Washington, March 22.—A circular issued by the chief of the secret bureau says a new counterfeit \$10 national bank note on the Merchants and Farmers' National bank of Weatherford, Tex., series 1882, check letter A, charter No. 3975, treasury No. V72828, bank No. 5005, W. S. Rosecrans, registrar of the treasury; James W. Hyatt, treasurer of the United States, has been discovered. This counterfeit is a photographic print. The charter number panel on the back of the note is tinted green in a bungling manner. A yellowish brown tint has also been applied to the seal on the face of the note. It is printed on two pieces of paper of good quality, between which a few silk threads have been distributed.

Cheatham Accidentally Shot.
Sherman, Tex., March 22.—A letter from Dr. Jerr Warren of Havana, Cuba, at whose home M. V. Cheatham of Sherman was a guest when accidentally shot last Sunday morning, details the circumstances of the unfortunate occurrences which have hitherto been but meagerly reported in cablegrams. When Mr. Cheatham retired he placed his revolver under his pillow. In getting up in the morning the weapon was pulled off the bed and discharged. The ball entered about two inches to the left of the spine.

is seriously affected. A radiogram received Friday morning is a little more reassuring as to his condition.

Texas Bankers' Association.
Galveston, March 22.—The eighteenth annual convention of the Texas Bankers' association adjourned sine die Friday afternoon after having completed the business outlined for the meeting here, electing J. E. McAshan of Houston, president, and choosing Sherman-Denison as the next place of meeting. The rest of the day was devoted to social features.

Ruhlin Defeats Maher.
Philadelphia, March 21.—Gus Ruhlin and Peter Maher met at the Industrial Athletic club here Friday night in a six-round go, and in the latter part of the second round Maher went down and out on a hard left on the jaw.

Plague Raging in Lahore.
London, March 22.—A dispatch to Exchange Telegraph company from Lahore says the plague mortality has reached 2000 daily. The outbreak, which is the worst on record, is attributed to the policy of non-interference with caste customs.

Big Sale of Postage Stamps.
Chicago, March 22.—The record-breaking sale of postage stamps is reported by the Chicago postoffice. The sale was 1,000,000 stamps, for which the purchaser gave a check for \$25,000.

GERMANY NOT IDLE.
Pushing Work on the Shan Tung Railway to Further Her Interest.
Berlin, March 22.—Germany is once more playing a strong game in China. According to private dispatches received by the owners of mining and railway concessions here, large squads of laboring men have been ordered to the Shan Tung valley, whither special freighters of the North German Lloyd and Hamburg-American lines are en route with railway material to complete the main portion of the Shan Tung railway which connects the port of Tsing Tau with a rich coal and mining district in Weihsien, and which must be completed by June 1, of this year. No secret is made of the fact that special syndicates are being formed to obtain possession of the Weihsien mines, while railway lines are projected, not alone to all the corners of the rich Shan Tung province, but likewise to Kng Su and Chi Li, lying beyond the borders of the German sphere of influence.

MORE "IMPARTIAL" HISTORY.

Anent your editorial in the Morning Eagle on "An Impartial Historian," I beg to offer a few criticisms on another impartial(?) history that is being sold over Texas. I refer to "Six Thousand Years of History," consisting of ten volumes and published by a St. Louis house.

For inexcusable misrepresentation it surpasses any other work I ever saw, yet it has the official endorsement of such distinguished citizens as Gov. Sayers and ex-State Superintendent J. S. Kendall, and is recommended by several prominent teachers of Texas.

In the write up of the Shiloh battle, Vol. VI. page 454, the writer says, "He (Grant) then pushed to the front and found the divisions of Sherman and McClelland magnificently battling against great odds. The situation was desperate. Grant moved about from point to point, calmly smoking a cigar and urging his men to hold their ground until the arrival of reinforcements. But as the hours passed and the ranks grew thinner and thinner, nothing was heard either from Buell or Wallace. Finally late in the afternoon, Buell arrived, but accompanied only by a few staff officers, having left his army far in the rear." This was the afternoon of the 6th of April.

Gen. W. T. Sherman, the Northern hero in this battle, says, "Buell rode up to where I was" and said that "Nelson's, McCook's and Crittenden's divisions of his army, containing 18,000 men, had arrived (on the afternoon of the 6th) and could cross over in the night, and be ready for the next day's battle." (See Memoirs, 4th ed. ch. 10 (v. 1).) But this recent historian leads one to conclude that Grant fought on the 7th without the help of these fresh troops for he says "Grant saw that his troops were beginning to give way, and glancing about saw the First Ohio Regiment marching toward a distant part of the field. He placed himself at their head and led the charge to relieve the wavering ranks, which were at this moment retreating before the enemy. The charge was successful and the Confederates were swept from the last important positions in the battle of Shiloh."

Just before Grant died a Northern Magazine paid him, I think \$10,000 to write up the battle of Shiloh and over his own signature he said, "I was in gun shot of the enemy but once during the day and that by accident, and remained in danger only so long as it took me to get out—about one minute." (I quote from memory.)

Yet this impartial historian has Gen. Grant "to the front, calmly smoking a cigar urging his men to hold their ground," and finally makes him lead a dangerous charge that "swept the Confederates from their important positions." I have quoted from Northern heroes to show that this writer's statements are false.

Again in his sketch of Edgar Allen Poe (see Vol. IX. page 414) he says "Poe was a student at the University of Virginia, where his irregular nature was nurtured in the old cavalier vices of the South. He drank, gambled, ran in debt, and indulged in perverse pride, and was finally disowned by his adoptive father."

When and where has it been proven that drinking, gambling, running in debt, and indulging in perverse pride are vices peculiar to the South, or that the University of Virginia, our greatest institution of learning ever "nurtured" these vices?

I should like to quote other passages from these histories, but space forbids, but let me say that our citizens from the governor to the humblest day laborer should not give aid to any work that is unjust to any section of our common country.

The truth of history should be told regardless of what section is favored, but told without slandering any other section.

Respectfully,
T. S. Minter.
